

## BLAKEMORE PROBES MADE OF SILICONE (MODELS 32, 42, 52 & 53)

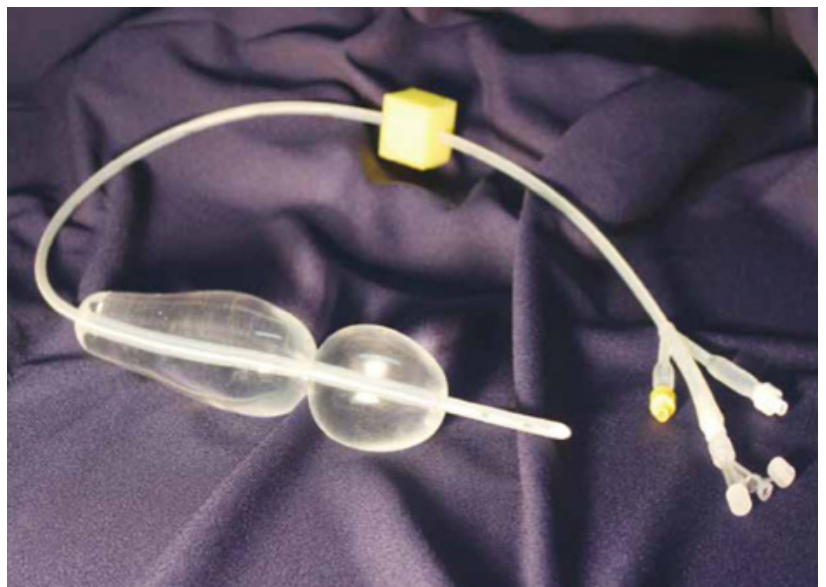

Medfirst offers 4 Blakemore tubes, designed in silicone and available in 4 distinct sizes, 32, 42, 52, and 53.

### Blakemore tube type 32 :

Model 32 is a simplified tube that focuses on essential functions, made of 100% pure silicone with high biocompatibility.

It is equipped with 3 lumens and 2 balloons for hemostatic pressure on esophageal varices and aspiration of gastric contents.

Reference	Size
800.320.0150	15Fr
800.320.0160	16Fr
800.320.0180	18Fr
800.320.0210	21Fr

# BLAKEMORE TUBE MODEL 42

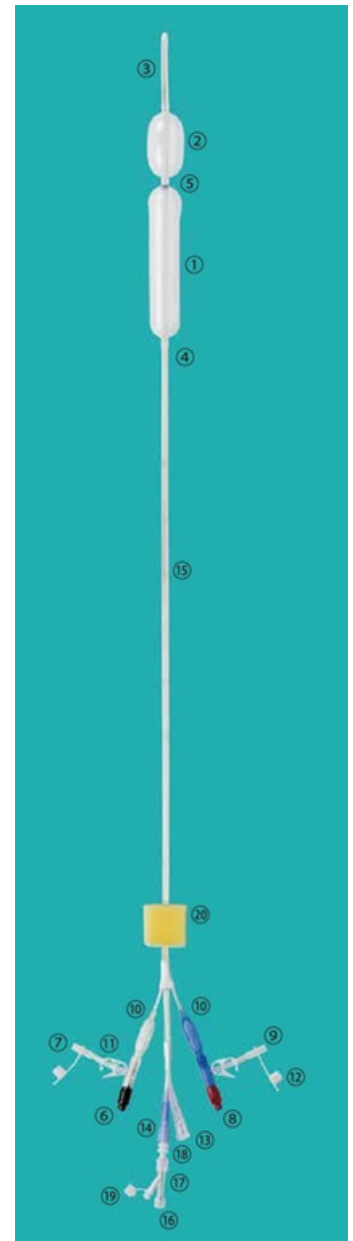

## Blakemore tube type 42 :

Model 42 is made entirely of silicone and has 4 lumens, including large lumens for gastric and esophageal suction.

It is equipped with a stylet for faster insertion and a sponge pad with its clip for better opening and closing of the manometric line.

It also has user-friendly manometric lines and is sterilized with EtO gas.

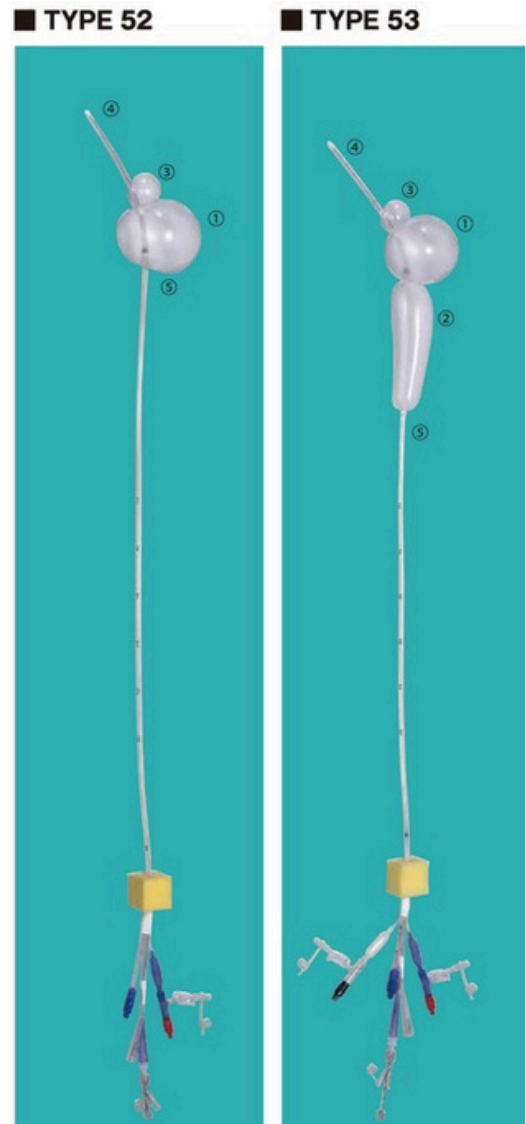

Reference	Size	Outer diameter
002.182.0400	16Fr	5.3
002.182.0420	18Fr	6.0
002.182.0440	20Fr	6.7

# BLAKEMORE TUBE MODEL 52 & 53

## Blakemore tube type 52 & 53 :

Models 52 and 53 are designed with balloons for urgent angiopressure in bleeding induced by gastric varices. They are equipped with fixation balloons and balloons intended to stop bleeding from gastric varices. Both models have depth marks at 25, 30, 35, 40, 45, and 50cm, and are sterilized with EtO gas. Model 52 does not have an esophageal balloon.

Model	Reference	Size	Outer diameter
Type 52	002.182.5218	18Fr	6.0
Type 53	002.182.5318	18Fr	6.0
